WORK EXPERIENCE

Tableau Developer | Product Management

BuyersRoad Inc Pvt Ltd | May 2023 - Present

- **Translating Product Strategy:** Translated the product manager's strategy into actionable tasks, resulting in a **20% improvement** in task completion time, while collaborating with cross-functional agile teams.
- **User Representation:** Represented users in delivery teams by thoroughly understanding user needs, pain points, and problem statements through user research, interviews, and user shadowing, leading to a **15% improvement** in stakeholder satisfaction.
- **Business Problem Definition:** Defined business problems with a focus on user empathy and experience to create the right solution to solve needs, optimizing solutions to fit a wide range of business needs by consulting with the engineering team to propose solutions back to the business.
- **Tableau & Data Management:** Leveraged Tableau Desktop and Tableau Server for comprehensive data analysis, optimizing report sections, which improved customer usage efficiency by **35%**. Connected to diverse data sources and handled large datasets (over **2 million records**) in MySQL, Redshift, BigQuery, Pre-Builder and Alteryz resulting in a **20% reduction** in data processing and loading time.
- **Global Collaboration:** Fostered global collaboration through successful partnerships and projects with teams in the United States. Coordinated with the engineering team to address technical challenges ensuring timely delivery of product features.

Quality Analyst | Data Analytics

Amazon | June 2020 - May 2023

- **Operational Improvements:** Led initiatives to drive system improvements, identifying root causes, which led to a **15% increase** in process efficiency.
- **Data Analysis:** Managed large amounts of data, analyzed it to identify gaps in the process, and worked towards solutions.
- **Advanced Data Management:** Utilized advanced Excel functions to generate spreadsheets and pivot tables for data visualization and analysis.
- **Ticket Management:** Managed critical business tickets daily, resolving them within the stipulated ETA and SLAs.
- **Data Visualization:** Visualized data using Excel, QuickSight, PowerBI and Tableau to deliver feedback on data to client advisors, team managers, and department leaders.

Digital Associate | Quality Services

Amazon | June 2019 – May 2020

- **Operational Improvements:** Interacted with the business automation & technology teams to help drive operational and system improvements.
- **Digital Information Management:** Managed digital information for Amazon ASTRO (Home Robot).
- **Productivity & Quality:** Met daily productivity and quality targets, feeding digital information to ASTRO and conducted manual testing of Amazon ASTRO products to ensure quality and functionality.

Business Development Associate

Extramarks Education Pvt Ltd | May 2018 – April 2019

- **Client Relationship Management:** Developed and maintained relationships with key banking clients, ensuring consistent communication and service delivery.
- **Data Reporting:** Generated detailed Excel reports on banking transactions, customer data, and financial metrics to provide actionable insights for the sales team.
